

Masthead Drive, Bargara Drainage Improvements

Project Portal No ISD1920.2015
Issue 1 – November 2015

Bundaberg Regional Council will soon be commencing drainage improvement works in Masthead Drive and completing works in Atlantis Boulevard. The purpose of the works is to provide a graded open drain to eliminate water ponding. Works are expected to commence in mid-November and continue through to mid-December.

The works will include construction of a concrete invert at new levels to provide a flow path for water from the area. Culverts under Masthead Drive and Atlantis Boulevard will be raised to the new grade levels.

During construction, road closures will be required, however local access will be available via detours and a sidetrack in Masthead Drive. Traffic control signage will be in place to notify motorists of the changes.

Waste collection should not be affected during this time.

Bundaberg Regional Council is aware of the inconvenience construction work causes and thanks residents and road users in advance for their patience and co-operation.

If you have any concerns in relation to the improvement works, please contact Council's Project Manager, Mr Tim Hurn, on 1300 883 699.

During construction, please direct any enquiries to the Site Supervisor as detailed to the right, or email the Roads and Drainage Team at roadsdrainage@bundaberg.qld.gov.au.
